Projects

Live Chat Room (Server program) **Java**

- Implanted a multiuser live chat room using java TCP server and multi-threading.
- Built chat box UI using java swing.

Assembler **C**

- Architected, designed and executed a medium size complex project.
- Implemented a 2-step assembler including: reading and writing to files, parsing text, dividing input into data structures according to use, bitwise functions.
- Held multiple complex data structures and files.

Personal web-site **Html, CSS**

- Designed and executed a web page using self-taught development tools – Html, CSS and Bootstrap.

Professional Experience

Tel-Aviv, Israel

Machon-Noam is the largest test preparation institute in Israel.

2018 - 2019 **Project manager**

In this role I drove a 6-month long project of re-locating the company's web-site from an independent platform to Umbraco.

- Envisioned the web-site design, flow and UI.
- Reduced the number of web pages by half, while maximizing pages SEO and UX.
- Directed the project from development state through QA and customer support post-launching.

2015 - 2018 **Content developer**

2011-2014 **Simulator instructor** **Israeli Air Force**

- Trained Israeli air force pilots and officers in the simulator, performing emergency and pre-mission drills.
- Led training for new simulator instructors, shortened training time by 75%, from 1 year to 3 months.
- Acted as a flank officer for 3 months, a position usually filled by a captain.
- 2013 base honors – selected as top 15 performer from 2500 soldiers.

Personal

- USA citizen.
